

JAMES R II

A TOUCH OF LUXURY

SILVER

This popular 6-10 berth houseboat has a distinctive purple rooftop rim. The purple represents that little bit of luxury which has been added with the new modern kitchen and bathroom. It also represents peace of mind, which comes with this easy to manoeuvre houseboat.

James R II has a similar floorplan to Murray Hawk, with two queen bedrooms, each with their own character, and a bunk room for the kids. The front

lounge is a little larger than the other similar houseboats, and the club lounge suite is well suited to families or two couples to all watch TV or play board games together.

The barbecue is on the rear deck overlooking the river and the easy start generator is on the rooftop up the ladder-way. On James R II you will always feel at peace!
